

THE ROSWELL DAILY RECORD.

VOLUME 1.

ROSWELL, NEW MEXICO THURSDAY EVENING, DECEMBER 10, 1903.

NUMBER 228

The Government Will Begin Work on the Hondo Reservoir Just as Soon as We are Ready.

RIOT IN CHICAGO

UNION SYMPATHIZERS ARE NOT YET SUBDUED.

HUNDREDS PARTICIPATE

Passengers Will Not Pay Fare to a Non-Union Conductor, and a Riot Follows.—A Car Wrecked, and it Takes a Wagon Load of Policemen to Quell the Disturbance.

Chicago, Dec. 10.—In a riot today growing out of the recent strike on the Chicago City Railway, a car was wrecked by a mob of union sympathizers, who furiously attacked the non-union conductor and motorman, badly injuring both. The crew of the car escaped finally to a near by building where they were guarded by the police. The riot occurred on Halsted street.

The riot was participated in by hundreds of men and boys. The passengers were forced to flee from the car. The non-union men of the crew were knocked off, pulled off by the feet and severely pummeled. Struggling up again the victims fled in different directions pursued by the mob. Failing to catch the fugitives the mob returned to the car and partially wrecked it. The patrol wagon with a load of policemen rescued two of the non-unionists. Some of the passengers were non-union men, and of course some of them were as severely treated as the crew of the car. Traffic on the line was suspended for nearly an hour, and hundreds of passengers were delayed. The trouble started when several of the passengers, among them some women, refused to pay fares to the non-union conductor. The conductor announced that the car would stop if they did not pay their fares. He was seized by some of the passengers who also ordered the motorman to start the car. At the sight of a revolver in the hands of one of the mob the motorman started the car, but when opportunity offered leaped from the platform, pursued by passengers. The conductor was then attacked. Both of the men were employed as strike breakers.

WRIT OF HABEAS CORPUS.

Test to be Made of the Validity of its Suspension at Cripple Creek. Cripple Creek, Colo., Dec. 10.—The writ of habeas corpus issued by Judge Seeds of the district court in the case of Victor Pools, a union miner held in the guard house at Camp Goldfield, will come up for hearing tomorrow. Information of Governor Peabody having issued a proclamation suspending the writ of habeas corpus in this case and abrogating the jurisdiction of the district court, creates much speculation as to the outcome tomorrow. The attorneys for Pools and the Western Federation of Miners say the case will be taken to a higher court and probably to the federal courts. The case will be made a test of the statutes on martial law in the state of Colorado.

STILL PENDING.

Japanese Diet Opened To-Day.—No Reply Yet From Russia.

Yokohama, Dec. 10.—Advices received here today from Tokyo say the Russian reply to Japanese proposals has not yet been received and that it is not believed to be finally decisive but that it will necessitate further negotiation for the settlement of minor details. It is believed that unless Japan's minimum dem-

ands are virtually conceded the cabinet at Tokio may decline to accept the Russian amendments. In any case the Japanese diet is expected to impeach the cabinet for apparent lack of aggressiveness. But the result is doubtful, as the government can dissolve the part of the opposition which threatens to embarrass its foreign policy. The people of Japan generally are calmly awaiting Russia's reply, and ready to end the suspense one way or the other, but resolved to yield nothing of her present moderate stand.

The Emperor opened the diet today. In referring to the situation in regard to Russian negotiations he only said that his ministers were now conducting with prudence and circumspection important international negotiations for the preservation of peace in the far east and of Japan's rights and interests.

MATCH GAME.

Five Heavyweights Will Bowl A Five Lightweights.

The most interesting game of ten pins of the season will be played tomorrow night between the "Heavyweights" and the "Lightweights," at the Coliseum Bowling Alleys. The sides are about evenly matched as to their proficiency in rolling the balls, if they are not in size. The parties to contest are as follows:

Heavyweights.—N. Jaffa, Cahoon, Dr. Kinsinger, McGaffey, Pollock.

Lightweights.—Bedell, Graham, Bishop, DeFreest, Paylor.

There will of course be a crowd to see the game and the management have been requested to have some special seats for the ladies.

JAMES A. GILLESPIE.

A Member of the Missouri Legislature Was a Roswell Visitor.

James A. Gillespie, of Columbia, Missouri, who has been here on important legal business, left yesterday for Canyon City, Texas, where he will visit his son J. B. Gillespie before he returns home. He is a typical Missouri gentleman and his manner is pleasant and courteous, and he is possessed of the wonderful faculty of gaining one's friendship after a few minutes conversation. He is a Democrat and is at present the representative in the Missouri legislature from Boone county. Mr. Gillespie is greatly pleased with Roswell and says he will have lots of good things to tell about Roswell and the Pecos Valley when he returns home.

A PROMINENT PHYSICIAN.

Dr. E. M. Fisher, of Gainesville, Tex. Has Located Here.

Dr. E. M. Fisher, a prominent practitioner of Gainesville, Texas, has located here and will make his future home in this city. He arrived here Saturday with his family and they are delighted with Roswell. Dr. Fisher has bought lots in Alameda Heights and will build a nice residence next spring. He is a personal friend of E. P. Rasmussen of this city. Dr. Fisher was given a grand banquet by his friends the day before he left Gainesville.

An Excellent Teacher.

Miss Lucile Duckworth at 301 N. Kentucky avenue, is the only conservatory graduate in Roswell, the only teacher who plays what she teaches, and the only teacher who teaches the genuine artistic touches in piano playing, such as:

Liszt's secret of his wonderful passage playing;

Rubenstein's legato octave stroke; Leschetizky's position for rapid fortissimo playing—"the hardest thing in piano forte technique;"

DePachmann's liquid trill touch; Mason's velocity secret;

The stroke for the singing touch, the wheel touch, and the portamento stroke;

Heavy chord and whole arm touches.

When Miss Duckworth's pupils leave her for any celebrated teacher or conservatory, they will not have to spend a discouraging year or two re-learning first principles.

Admiral Gherardi Dead.

Stratford, Conn., Dec. 10.—Rear Admiral Bancroft Gherardi (Retired) died at his home here today.

BUYING FIRE ARMS

ITALIANS AND SICILIANS ARE PREPARING TO FIGHT.

CONFLICT FEARED

The Attack at Berwind Yesterday Was Precipitated by These Foreigners.—A Conflict Between the Strikers and Camp Guards May Occur at Any Time.

Trinidad, Colo., Dec. 10.—Many Italians and Sicilian strikers are in town today buying revolvers and ammunition. They are threatening further assaults on the non-union employees of the coal companies. The attack at Berwind yesterday, it develops was precipitated by Sicilians and Italian men who also participated in the shooting. The United Mine Workers have completed arrangements for opening a depot in this city from which supplies are to be distributed to strikers in the surrounding camps. It is feared further conflicts between the strikers and camp guards may occur at any time.

AIM TO PREVENT STRIKES.

A National Federation of Local Employers' Associations.

Chicago, Ill., Dec. 10.—Preliminary steps were taken in Chicago today to organize a national federation of local Employers' Associations in the those well informed as to the purpose and scope of the movement its importance can scarcely be overestimated. In plain words it aims to curb the excessive exactions of the labor unions, from which the building trades have suffered of late perhaps more than any other line. Other objects, such as the standardization of material and the suppression of unfair competition, will be kept in view by the new organization, but all of these will be of secondary importance in comparison with the main purpose of advancing and protecting the interests of the contractors in their relations to the labor unions.

The idea of the National Association of Employers, under which name the federation is to be known, had its inception in the formation of the Building Trades Employers' Association in New York last spring. Nothing of the kind on so large a scale had ever been achieved in any city in this country, and all cities which had been disturbed by labor conflicts watched the outcome. Soon similar associations were formed in other cities and the idea of a national federation was the result. Represented in the federation are the following trades: Architectural iron, elevator building, plastering, house drainage, mantel and tile work, masons and builders, plumbers, steamfitters, carpenters, stone cutters, marble manufacturers, painters, decorators, mosaic work, and electrical work.

The objects of the organization, as set forth in the call for today's conference, are as follows:

To advance and protect the interests of the contractors.

To secure equitable treatment in their dealings with their employees.

To encourage organization and the formation of associations of contractors.

To regulate conditions among the building contractors.

To maintain peace and harmony between the employer and employee. The basis of settlement of all dis-

putes should be conciliation and arbitration.

The sympathetic strike should be absolutely prohibited.

Where conditions are, proper and employees' associations exist, agreements to be made with them.

A uniform form of agreement to be adopted and used in making all joint agreements, wages being adjusted according to local conditions.

All agreements to embody the following principles:

There shall be no restriction of the use of any manufactured material, except prison-made.

No person shall have the right to interfere with the workmen during working hours.

The use of apprentices shall not be prohibited.

The foreman shall be the agent of the employer.

All workmen are at liberty to work for whom they see fit.

All employers are at liberty to employ and discharge whomsoever they see fit.

The last clause is a plain declaration for the open shop. Union men have always contested that a successful movement to establish the open shop meant the end of organized labor. For this reason it is predicted that the new association will have the antagonism of the unions from the very outset. Foreseeing the probable aim of the new association, the American Federation of Labor, assembled in annual convention in Boston last month, gave extended attention to the open shop issue and formulated a report strongly opposing it. The action of the two organizations, one representing three-fourths of the organized workmen of America, and the other representing the building trades of the entire country, portend a conflict the extent and results of which can be but faintly imagined.

The organization of the building trades is the first great step in the movement urged by President Parry of the National Manufacturers' Association to organize all the employers of the United States in a fight against the alleged unjust demands of the labor unions. The success of the first effort, so far as the work of organization is completed, is such as to gratify its promoters. The extent to which it has "caught on" is evidenced by the fact that nearly fifty cities were represented among the delegates present when the conference opened this morning. Among the cities are New York, Chicago, Pittsburg, San Francisco, St. Louis, Minneapolis, Topeka, Cedar Rapids, Cincinnati, Newark, Reading, East St. Louis, Detroit, Indianapolis, Erie and Cleveland.

A Monument to Oglethorpe.

Savannah, Ga., Dec. 10.—The patriotic societies of Savannah have completed arrangements for a ball tonight designed to be one of the greatest social functions in the history of the state. The proceeds are to go towards the erection of a monument to the memory of Gen. James Edward Oglethorpe, who, with his followers 175 years ago laid the foundation of the colony that has grown into the state of Georgia.

NEPHEW OF JERRY SIMPSON.

H. G. Simpson and Family Leave for El Paso.

H. G. Simpson, wife and two children left yesterday afternoon for El Paso where they will make their future home. Mr. Simpson came here from Denver, Colo., and has been a resident of Roswell for about one year. He was a member of the house decorating firm of the "Stacy Did It Co.," but recently sold out his interest in same. He is a nephew of the Hon. Jerry Simpson of this city.

Will Make Their Home Here.

J. Q. Tannehill and daughters, Misses Bettie and Maude Tannehill, of Amarillo, are here and will make their future home in this city. They will keep house on North Main street with C. C. Tannehill in the new house recently erected next to Dr. Skidwith's residence. J. Q. Tannehill is the father of C. C. and L. B. Tannehill of the enterprising firm of Stringfellow & Tannehill of this city.

AFTER SMOOT

THE COMMITTEE MEETING WILL OCCUR SATURDAY.

IMMENSE PETITIONS

That the Committee Will Make a Thorough Investigation of Mormonism and its Tenets Seems Certain. Smoot May Be Unseated.

Washington, Dec. 10.—Chairman Burrows of the Senate Committee on Privileges and Elections has called a meeting for Saturday to consider whether any action shall be taken on the protests and petitions for the expulsion of Senator Reed Smoot of Utah. There is an immense mass of petitions coming from forty different states. Congressional callers at the White House are manifesting increased interest in the case. That a thorough investigation will be made by the committee now appears beyond doubt. An effort will be made to ascertain accurately the attitude of the Mormon church toward the government of the United States and to learn whether or not a member of that organization is bound by any pledge or oath, the taking of which is incompatible with the oath of a senator of the United States. If this should be established it is the belief among the senators generally that Smoot will be unseated. Many of those opposing Smoot believe that any effort made to prove that he is a polygamist would result in failure.

Washington, D. C., Dec. 10.—When the senate met today a number of bills were introduced and reports presented. Senator Hoar gave notice that as soon as practicable he would call up his resolution requesting information from the President concerning the conditions under which the independence of Panama was recognized. The Cuban bill was laid before the senate, but as no one appeared ready to speak adjournment was taken.

Washington, D. C., Dec. 10.—When the house convened today Van Voorhees (Ohio) for the Committee of appropriations reported the appropriation bill and gave notice that he would call it up tomorrow for consideration. In reply Mr. Payne said it was the purpose of the committee to have full debate on the bill.

The House Committee on appropriations today authorized a favorable report on the pension appropriation bill. It carries a total of 135 millions.

THE EMBASSY BALL.

Greatest Modern Sensational Drama Presented Last Night.

The Embassy Ball was presented at the opera house last night by the Noble Dramatic Co., as their third attraction. The audience was large and enthusiastic and received the play in an appreciative manner. As a highly sensational and strictly moral play Embassy Ball is one of the leading ones in this country. The manner assuring to the audience that the company is first class and far above the average.

As George Fane, the wronged and aggrieved husband, J. A. Wolfe was especially good, and his manner of handling his part goes to show that he is not a novice in his line. Miss Hattie La Mar as Mrs. Fane, the wayward and afterwards repentant wife, deserves especial mention as to the strength and reality of her

presentation of her very difficult part.

The company remains in Roswell the balance of the week presenting a change each night, also a matinee Saturday afternoon. Friday night's attraction, "Resurrection," promises to be especially interesting in that scenery especially prepared for this play and costumes of rare beauty are to be introduced.

FOUND GUILTY.

Prof. J. M. Newman Convicted of Practicing Medicine Without a Physician's License.

Professor J. M. Newman, the magnetic healer and hypnotist, was found guilty yesterday afternoon in Justice Peacock's court by a jury on the charge of practicing medicine without a license.

District Attorney Hervey represented the prosecution and Prof. Newman argued the case in his own behalf. The warrant was sworn out by Dr. Joyner, the representative of the Board of Health of New Mexico, and at the request of the Board of Health. Professor Newman claims to make remarkable cures and says it is a case of persecution, as this is the second conviction. The jury was composed of Charles Ruark, Captain Haynes, Phil Helmig, S. Totzek, F. M. Jump and Cy Waugh.

A HANDSOME RUG.

Made of 28 Skins of Coyotes, Lobo Wolves, Foxes and Wildcats.

Frank Eaton shipped a very unique and handsome rug today to his father J. F. Eaton at Douglas, Michigan. The rug is a Christmas gift and was indeed a handsome one. It was made of twenty-eight hides of coyote and Lobo wolves, foxes, and wildcats. The hides were sewed on a heavy lap-robe and sixteen tails were on the ends of the rug. It was made by old Billy Work of Carlsbad, and is valued at about \$75.
